Unparalleled Enterprise Mobility Experience – iVedha and SAP

Founded in 2001, iVedha is an SAP® channel partner, IT services provider, and solutions integrator. iVedha's Enterprise Services Group specializes in accelerating development of SAP solutions and enterprise mobility applications. Our customers include government, energy, mining, construction, retail, manufacturing, electronics, financial services, and telecommunications companies.

- **Enterprise Mobility Advisory Services**
Implementing mobile applications requires more than off-the-shelf solutions. iVedha's principals have provided strategy, road-mapping, and advisory services to RIM, SAP, Holcim, e-Health Ontario, and many others. Our principals are experts on harnessing wireless technologies for integration with enterprise implementations.
- **Enterprise Mobility Implementation Solution**
iVedha's engineers and consultants have developed mobility solutions using Sybase® Unwired Platform, PI, JCO, and SAP NetWeaver Gateway technology, in verticals and lines of business such as:

Transportation and construction

- GPS truck tracking – resulting in increased workforce efficiency
- Mobile ordering from remote construction sites – resulting in reduced material acquisition lead time

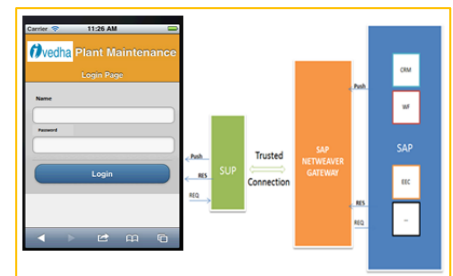

Service and repair

- Mobile work system integrated with SAP plant maintenance software

Rapid-Deployment Solution for SAP Mobile Apps and Infrastructure by iVedha

Learn how to extend the reach of your back-end databases to mobile apps and users who bring their own devices through an eight-week pilot deployment.

iVedha's rapid-deployment solution for SAP mobile apps and infrastructure is an off-the-shelf suite of all the SAP enterprise mobility software required to support mobile apps. Within an eight-week period, iVedha's mobility experts will work with your IT and user team to deploy and start piloting the most typical and visible mobile applications such as timesheet approvals, expense reporting, sales order notification, purchasing approval, and more. Through this fixed-scope/fixed-price engagement using standard apps, you'll be able to quickly familiarize yourself with the SAP mobile platform and the tools available for security and mobile device management, obtain user feedback, and determine how much time and effort you'll need to invest to move into a full-production implementation.

Take the First Step with iVedha

Whether you are interested in a mobility Rapid Deployment Solution, mobility Advisory Services, or custom mobile implementation solutions, iVedha is the SAP partner to work with. From rapid-deployment solutions, to strategy, road-mapping and advisory services, our mobility consultants will work with you and your organization as you take the next steps into mobilizing your enterprise.
